### **DETAILED ACTION**

1. Applicant's response filed 9/6/07 has been received and considered. Claims 1-4 have been canceled. Claim 5 is currently pending.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 5 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 5 line 3 "this" should be changed to --said--. Also and/or is indefinite. Which is it?

The claim is narrative in form and should be redrafted according to U.S. patent practice.

#### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated by Varnau et al..

Regarding claim 5, as can be readily seen in the drawings, Varnau et al. meets the claimed limitations. Note the shock absorbing means 16 has an opening at one of

its ends at 34 and note the threaded fastener at 18 which it receives. Note in figure 2 the two ends 30,32 and the flexible part 22,38 once the ends are secured into place.

6. Claim 5 is rejected under 35 U.S.C. 102(b) as being anticipated by Chen '888.

Regarding claim 5 Chen discloses a shock absorbing means of attachment for circuit boards at 11,13 and 15 that meets the claimed requirements.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 5 rejected under 35 U.S.C. 103(a) as being unpatentable over Delpech et al. in view of Chen.

Regarding claim 5 Delpech et al. shows a shock absorbing means of attachment at 7 with a part 2 located therebetween for use in printed circuit boards.

Lacking is showing that the part 2 is flexible.

Chen teaches it is known to make such a part flexible at 13.

It would have been obvious to the ordinary skilled worker in the art at the time the invention was made to have made part 2 in Delpech et al. from a flexible material, such as an elastomer dependent upon the damping capability desired, such as targeting specific vibrational frequencies.

***Response to Arguments***

7. Applicant's arguments with respect to claim 5 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
